Table: Order Details (1,500 rows) Column: Sales_Category (2 distinct values)

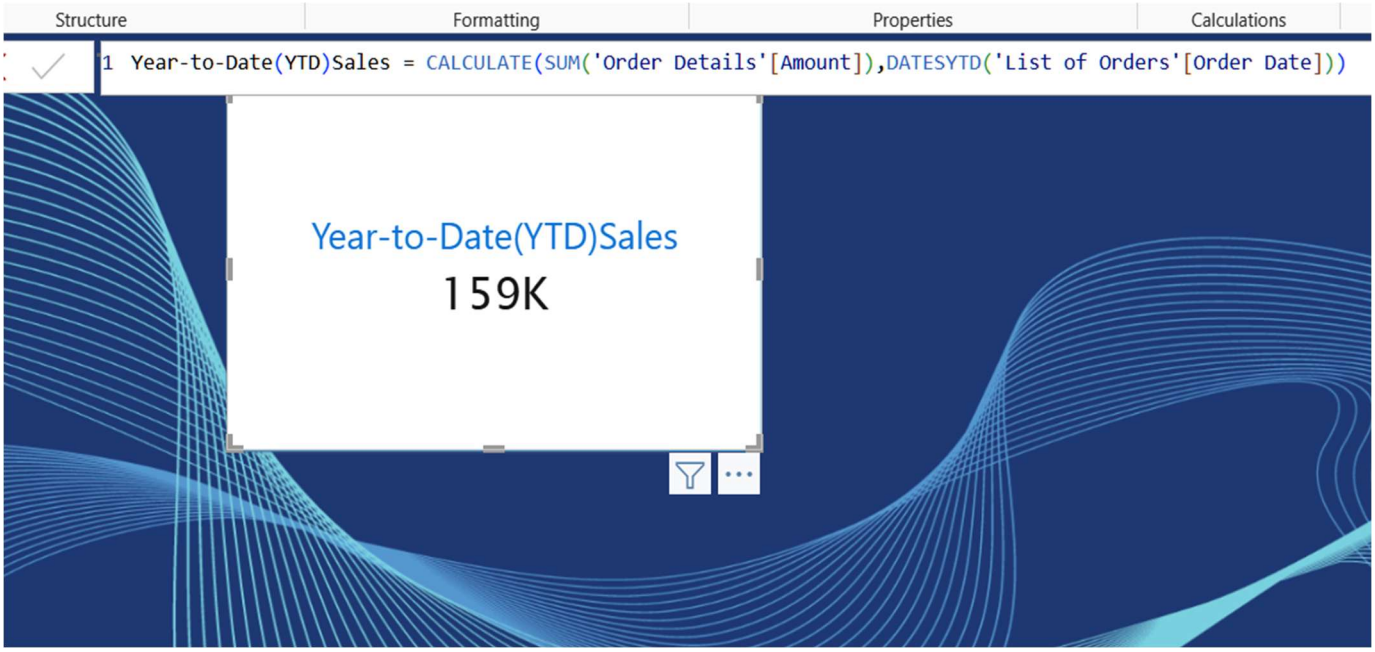

Create a measure that calculates the total number of orders in the Order Details table (Order Count)

Average Profit in Delhi

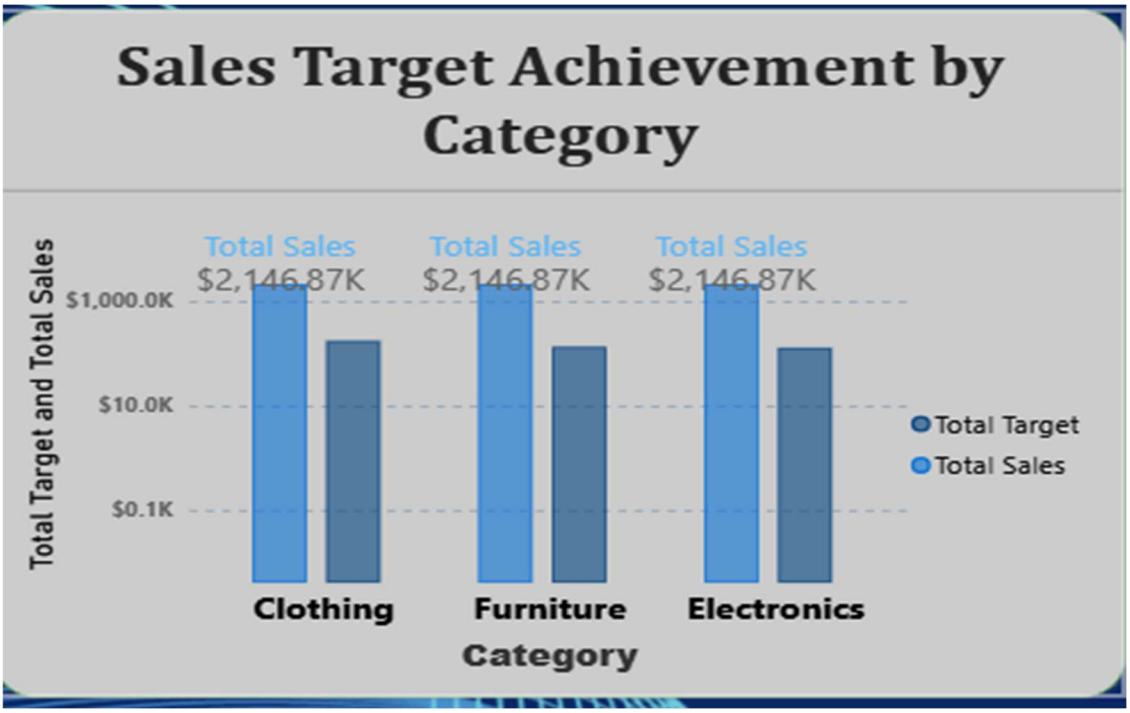

Year-to-Date (YTD) Sales

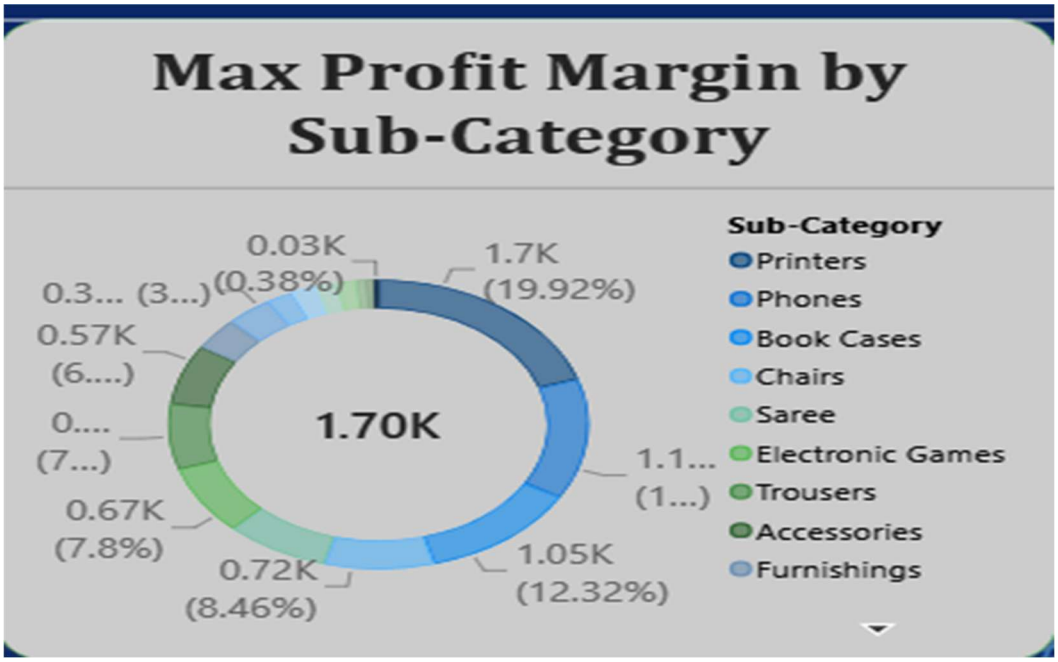

Data Visualization

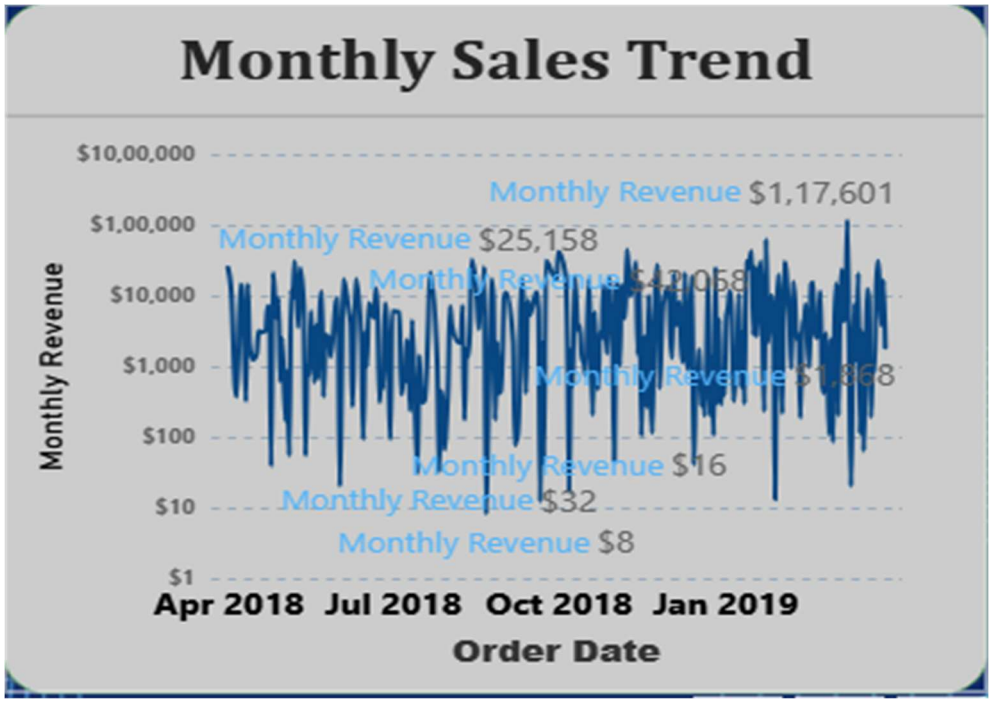

Sales Target by category using a clustered column chart

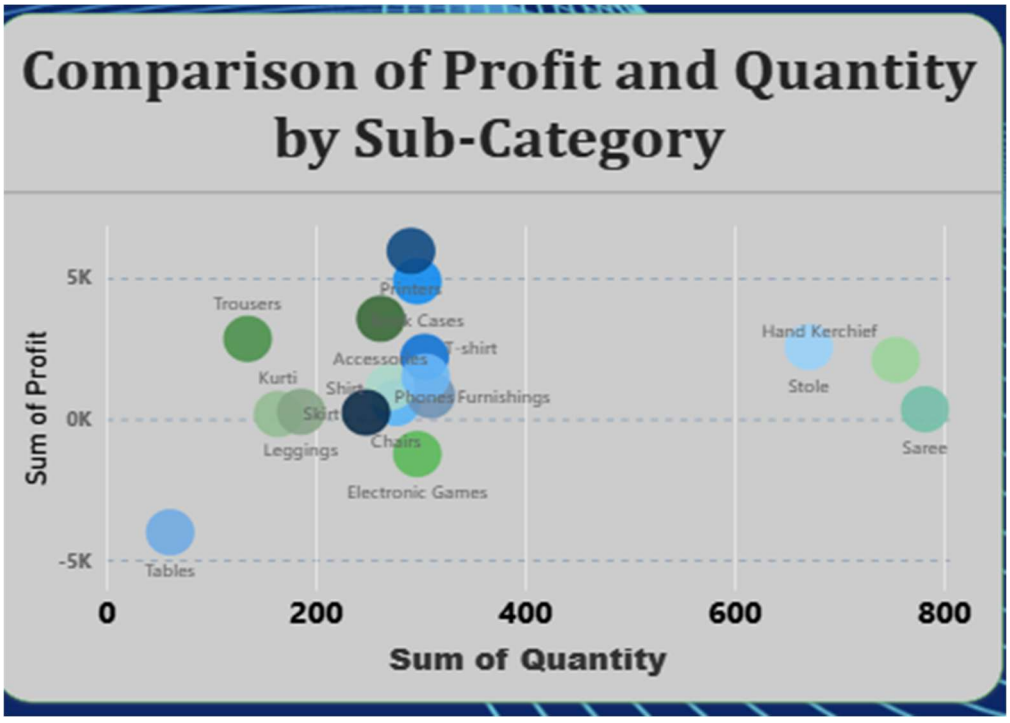

Analyze the maximum profit margin for each sub-category of products using a Donut chart

Monthly Sales Trend in Line Chart

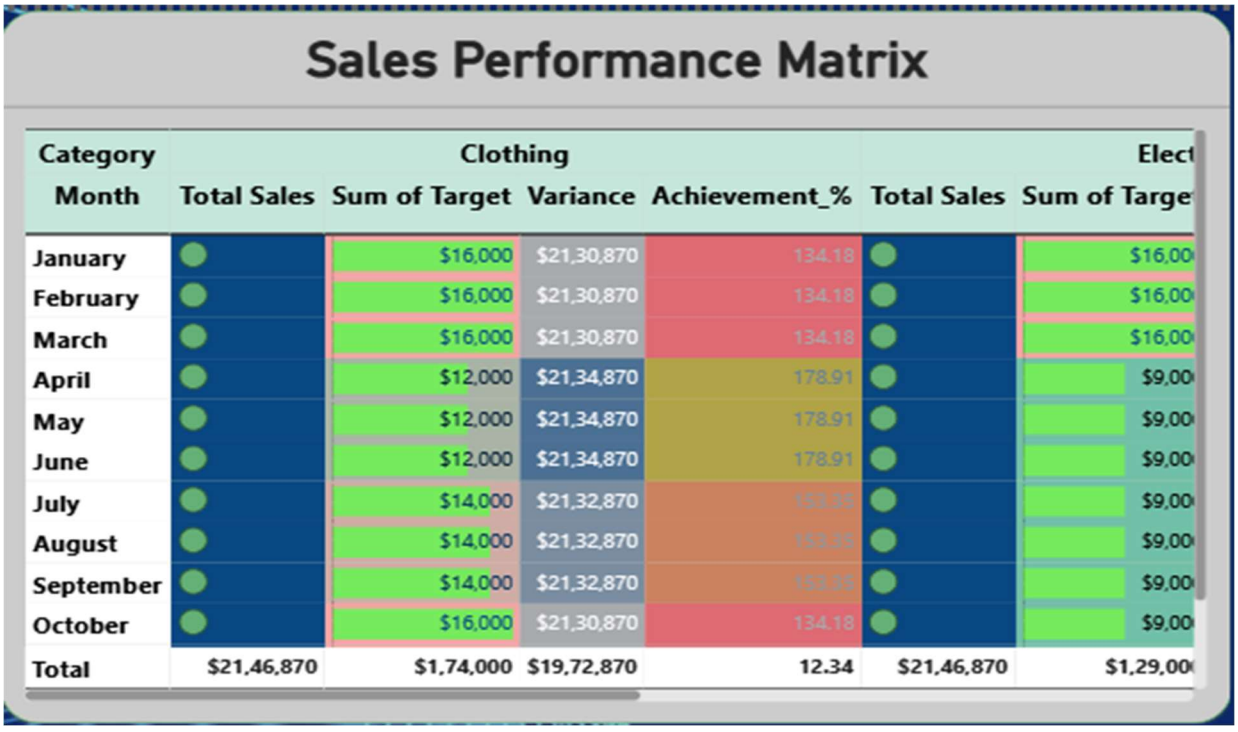

Comparison of Profit and Quantity by Sub-Category using in Scatter chart

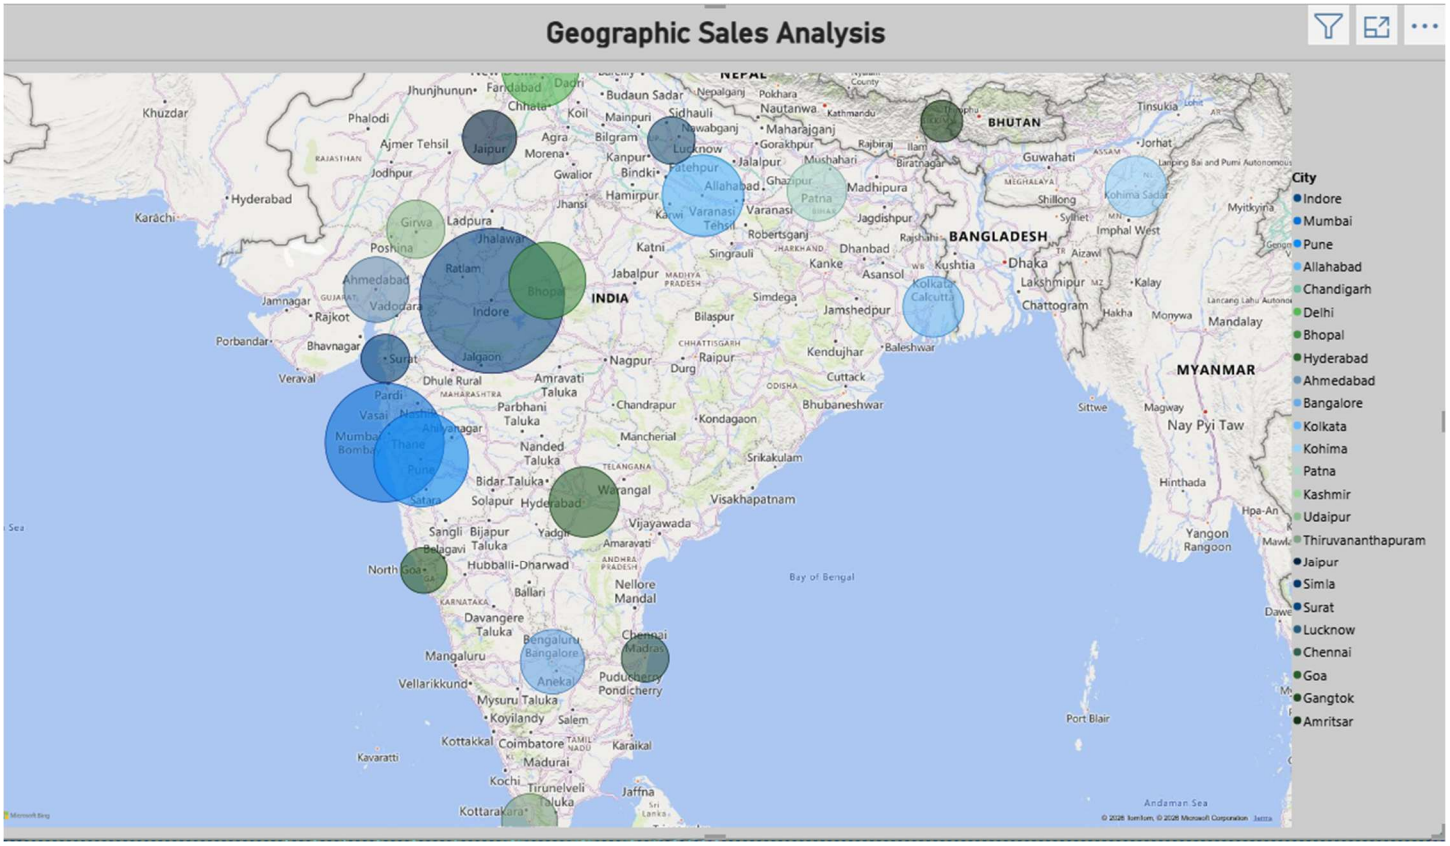

Comparison of Total Sales Amount and Target:

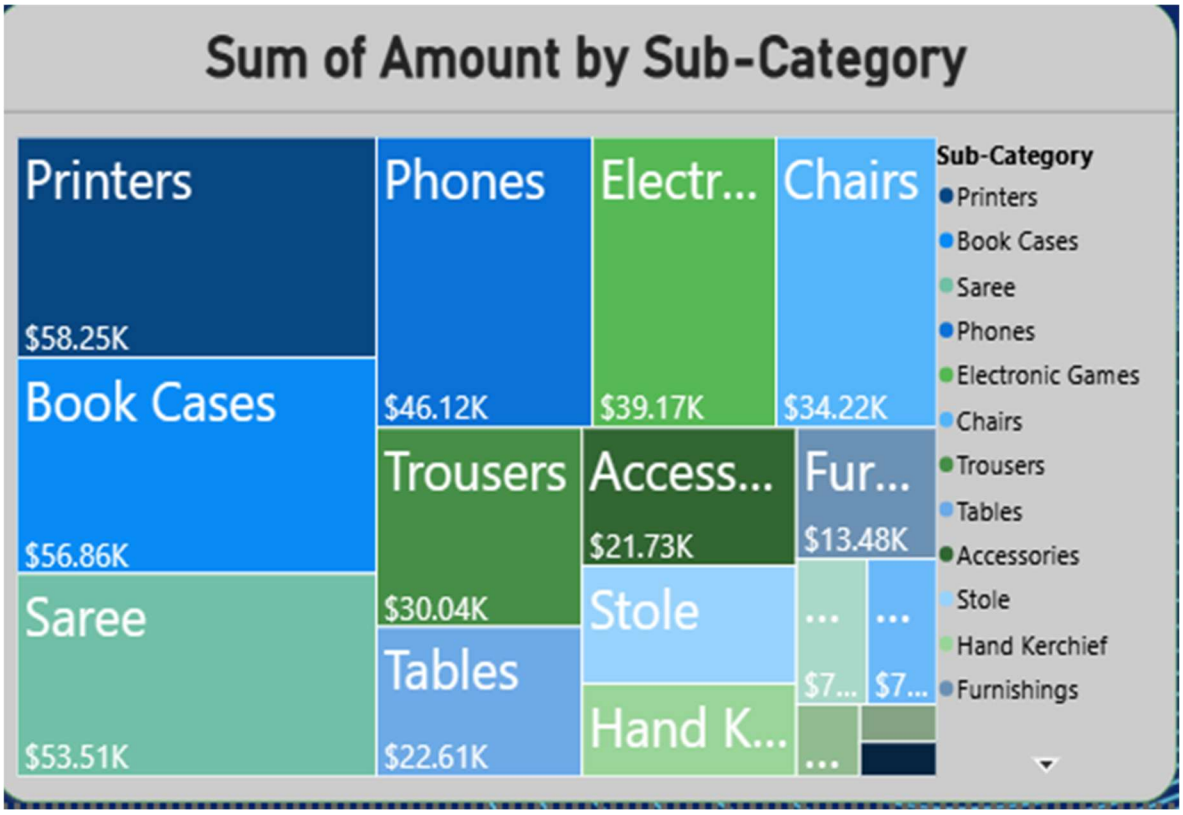

Sales Performance Matrix

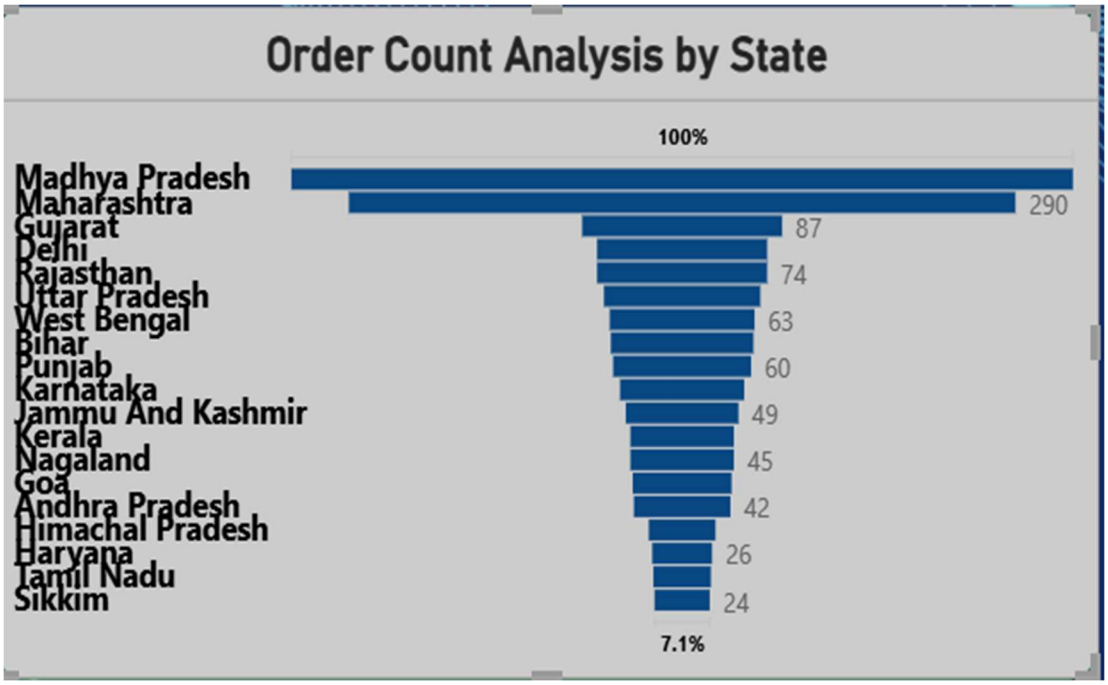

Geographic Sales Analysis

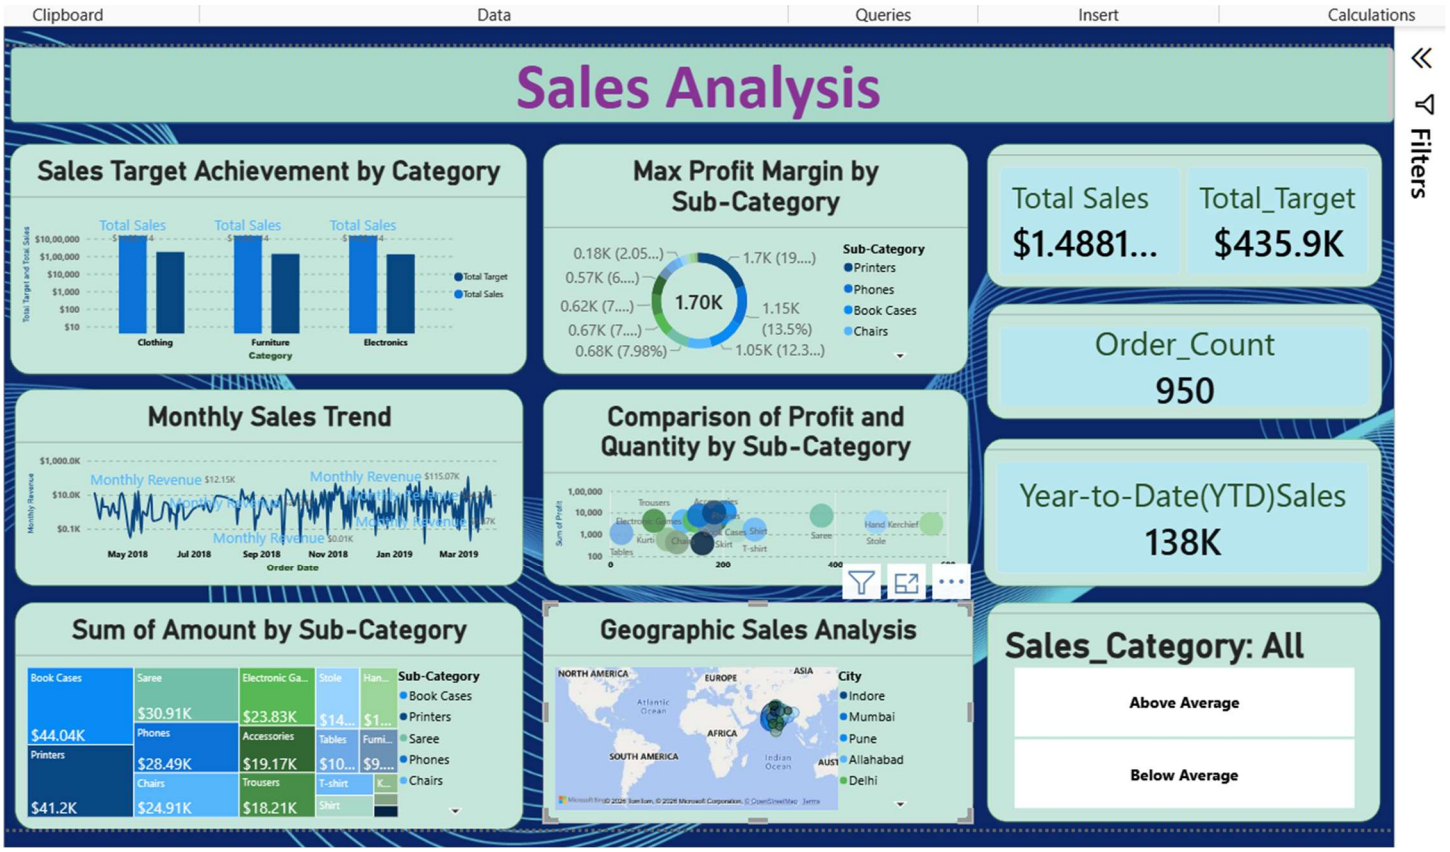

Sales Distribution by Sub-Category Using Treemap

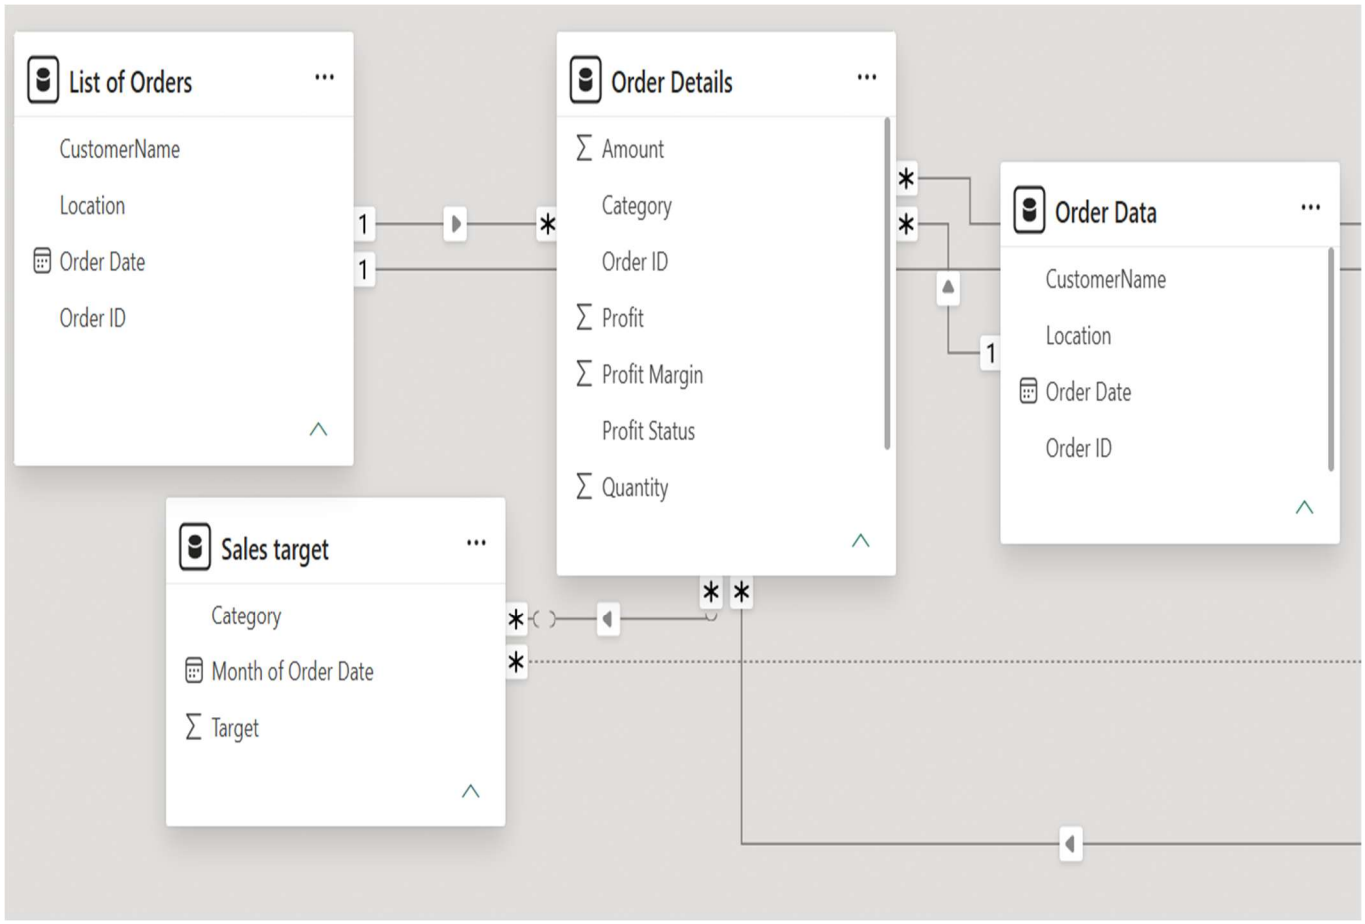

Create a funnel chart to visualize the distribution of order counts across different states

DASH BOARD LAYOUT

DATA MODELING

BRIEF EXPLANATION FOR EACH VISUAL

High-Level Metrics & Filters:

- **Total Sales Card ($1.4881...):** Displays the aggregate overall revenue generated across all categories and transactions.
- **Total_Target Card ($435.9K):** Shows the cumulative sales target set for the business.
- **Order_Count Card (950):** Indicates the total number of orders placed.
- **Year-to-Date (YTD) Sales Card (138K):** Summarizes the total sales accumulated from the beginning of the current calendar/fiscal year up to the present date.
- **Sales_Category Filter (All):** Allows users to filter the dashboard data by "Above Average" or "Below Average" performance tiers.

Performance Trends & Comparisons:

- **Sales Target Achievement by Category:** A bar chart comparing total target sales against actual total sales broken down by broad product categories (Clothing, Furniture, Electronics).
- **Monthly Sales Trend:** A line chart tracking monthly revenue fluctuations over time (ranging from May 2018 through Mar 2019).
- **Sum of Amount by Sub-Category:** A treemap/matrix breaking down the total sales amount by individual product sub-categories (such as Book Cases, Printers, Saree, Phones, Chairs).

Profitability & Geographic Distribution:

- **Max Profit Margin by Sub-Category:** A donut/pie breakdown illustrating the distribution or maximum profit margins contributed by various sub-categories like Printers, Phones, Book Cases, and Chairs.
- **Comparison of Profit and Quantity by Sub-Category:** A scatter plot evaluating the relationship between the sum of profits and the quantity sold across different sub-categories.
- **Geographic Sales Analysis:** A world map visualization mapping sales data across global regions alongside a city-level breakdown (e.g., Indore, Mumbai, Pune, Allahabad, Delhi).
